

# CLARA

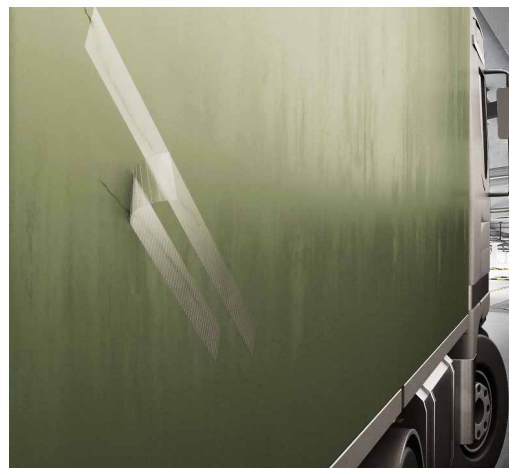

## UNIVERSAL TRANSPARENT SINGLE-SIDED TAPE

- Transparent and discreet, it is invisible when applied to any surface
- Exceptional adhesive strength at high and low temperatures and in the presence of moisture, for fast and secure application
- Extremely reliable in outdoor applications, UV stable and rain resistant
- The invisible solution for any repair

CODE	liner [mm]	B [mm]	L [m]	pcs
CLARA60	60	60	15	12

Thickness: 0,27 mm

## COMPOSITION

- ① support: PE film
- ② glue: acrylic dispersion without solvents
- ③ reinforcing layer: reinforcing polyester grid
- ④ glue: acrylic dispersion without solvents
- ⑤ release liner: silicone paper

## TECHNICAL DATA

properties	standard	value
thickness	-	0,27 mm
adhesion on steel at 90°	AFERA 5001	70 N/25 mm
watertightness	-	conforming
resistant to UV rays	-	12 months
application temperature	-	> -10 °C
thermal resistance	-	-40 / +120 °C
storage temperature <sup>(1)</sup>	-	+10 / +35 °C
French VOC classification	-	A+
solvents	-	no

<sup>(1)</sup>Store the product in a dry, covered location.
